the artist...

Mind's Eye Dub is Malta's top reggae musician. He plays all the instruments on his releases and takes care of production and mixing. His tunes have a heavy Mediterranean flavour: tough, but very melodic. His melodica tracks are very powerful: catchy, but enduring.

Born David Magro in 1969, he formed Malta's first reggae band, Mind's Eye, in 1988. The band played successful concerts all over the island for about ten years supporting reggae legends like Aswad, The Wailers, and Ziggy Marley & The Melody Makers in the process.

When the band split up, David built his own studio and his first solo project was a Bob Marley tribute album. In 2001, he did three CDs for mp3.com. He was now recording under the name of Mind's Eye Dub. Many of his next tunes were made available as free downloads at his mindseyedub.com site, as was the 2008 set with twenty of these tracks: 'I Wanna Love You'. 'Manwel T Meets Mind's Eye Dub At The Temple Of Dub' appeared on Dubkey in April 2009. David is currently preparing a new live set.

The three mp3.com albums

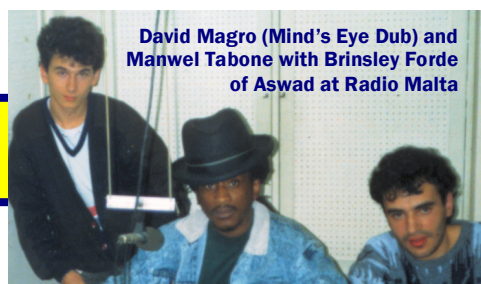

the album...

The majority of the tracks on this compilation were big download hits in the early 00s at the original mp3.com website. They also appeared on the three Mind's Eye Dub albums for mp3.com: 'Mind's Eye', 'Mystic' and 'De Jah Vu'. We are treated with several unforgettable melodies here, most of them played on the melodica: timeless, majestic, reggae instrumentals recorded on a Fostex cassette portastudio!

All these tunes were played during Manwel Tabone's Reggae Club show on Radio Malta. Two dub plates mixed especially for that programme, plus a vocal contribution from the great MC Trooper that was recorded live during the Dread Connexion show, are released for the first time on this album. Dread Connexion was a Sunday night live internet show originating from England, and MC Trooper was the resident toaster there.

'Nuff Respect' was recorded over the internet, so recording quality is not perfect, but the track is a scorcher! Nuff vibes and energy on this one!

Mp3.com was one of the first places on the net that offered free legal downloads and it helped many artists to establish themselves beyond the boundaries of their countries of origin. The tracks on this set introduced Mind's Eye Dub to the international reggae fans. This is a reintroduction, and a nostalgic trip for old Mind's Eye Dub, Reggae Club, and Dread Connexion fans! Go deh!
